

PUBLIKATIONEN PROF. DR. HOLGER KRAKOWSKI-ROOSEN

Stand: Oktober 2014

Originalarbeiten

Schmidt M.E., Wiskemann J., Krakowski-Roosen H. u. a.: Progressive resistance versus relaxation training for breast cancer patients during adjuvant chemotherapy: design and rationale of a randomized controlled trial (BEATE study). In: *Contemp Clin Trials* 34(1), 117-25, Jan (2013). Epub Oct 25 (2012).

Skorokhod A., Bachmann J., Giese N. u. a.: Real- Imaging cDNA-AFLP Transcript Profiling of Pancreatic Cancer Patients: Egr-1 as a Potential Key Regulator of Muscle Cachexia. In: *BMC Cancer* 12(1), 265, 21 Jun (2012).

Amarteifio E., Weber M.A., Wormsbecher S. u. a.: Dynamic contrast-enhanced ultrasound for assessment of skeletal muscle microcirculation in peripheral arterial disease. In: *Invest Radiol.* 46(8), 504-8, Aug (2011).

Krix M., Krakowski-Roosen H., Armarteifio E. u. a.: Comparison of transient arterial occlusion and muscle exercise provocation for assessment of perfusion reserve in skeletal muscle with real-time contrast-enhanced ultrasound. In: *Eur J Radiol* 78(3), 419-24, Jun (2001). Epub Dec 11 (2009).

Krix M., Krakowski-Roosen H., Kauczor H.U. u. a.: Real-time contrast- enhanced ultrasound for the assessment of perfusion dynamics in skeletal muscle. In: *Ultrasound Med Biol* 35(10), 1587-95, Oct (2009). Epub Aug 13 (2009).

Bachmann J., Ketterer K., Marsch C. u. a.: Pancreatic cancer related cachexia: influence on metabolism and correlation to weight loss and pulmonary function. In: *BMC Cancer* 28,9:255, Jul (2009).

Krix M., Weber M.A., Kauczor H.U. u. a.: Changes in the micro-circulation of skeletal muscle due to varied isometric exercise assessed by contrast-enhanced ultrasound. In: *Eur J Radiol* 76(1):110-6, Oct (2010). Epub Jun 21 (2009).

Martignoni M.E., Dimitriu C., Bachmann J. u. a.: Liver macrophages contribute to pancreatic cancer-related cachexia. In: *Oncol Rep* 21(2):363-9, Feb (2009).

Weber M.A., Hildebrandt W., Schröder L. u. a.: Concentric resistance training increases muscle strength without affecting microcirculation. In: *Eur J Radiol* 73(3):614-21, Mar (2010). Epub Jan 13 (2009).

Weber M.A., Krakowski-Roosen H., Schröder L. u. a.: Morphology, metabolism, microcirculation, and strength of skeletal muscles in cancer-related cachexia. In: *Acta Oncol* 48(1):116-24, (2009).

Bachmann J., Heiligensetzer M., Krakowski-Roosen H. u. a.: Cachexia worsens prognosis in patients with resectable pancreatic cancer. In: *J Gastrointest Surg* 12(7):1193-201, Jul (2008). Epub Mar 18 (2008).

Weber M.A., Krakowski-Roosen H., Hildebrandt W. u. a.: Assessment of metabolism and microcirculation of healthy skeletal muscles by magnetic resonance and ultrasound techniques. In: *J Neuroimaging.* 17(4):323-31, Oct (2007).

Weber M.A., Kinscherf R., Krakowski-Roosen H. u. a.: Myoglobin plasma level related to muscle mass and fiber composition: a clinical marker of muscle wasting? In: *J Mol Med* 85(8):887-96, Aug (2007). Epub Jun 30 (2007).

PUBLIKATIONEN PROF. DR. HOLGER KRAKOWSKI-ROOSEN

Stand: Oktober 2014

Weber M.A., Krakowski-Roosen H., Delorme S. u. a.: Relationship of skeletal muscle perfusion measured by contrast-enhanced ultrasonography to histologic microvascular density. In: J Ultrasound Med 25(5):583-91, May (2006).

Krix M., Weber M.A., Krakowski-Roosen H. u. a.: Assessment of skeletal muscle perfusion using contrast-enhanced ultrasonography. In: J Ultrasound Med 24(4):431-41, Apr (2005).

Hildebrandt W., Hamann A., Krakowski-Roosen H. u. a.: Effect of thiol antioxidant on body fat and insulin reactivity. In: J Mol Med 82(5):336-44, May (2004). Epub 2004 Mar 6.

Bücher

Bloss H. A., Bloss I., Krakowski-Roosen H.: Home Fitness – Die besten Workouts mit Geräten. Stuttgart: Paul Pietsch Verlag 2014.

Krakowski-Roosen, H., Eckey, S.: Funktionelles Training – Das All-in-one- Training. Stuttgart: Paul Pietsch Verlag 2014.

Poster und Vorträge

Hildebrandt, W., Krakowski, H., Stegemann, J.. Effect of static calf exercise on orthostatic plasma filtration. Differential effects of graded muscle tone on Starling forces. In: Eur J Appl Physiol Occup Physiol 69 (3 Suppl), 1994. p. 39.

Hildebrandt, W., Gunga, H.C., Krakowski, H. u. a.: Cerebral blood flow and fluid shifts in transition to/from 3600 m: Marked differences between high altitude miners and non-adapted subjects. In: Eur J Appl Physiol Occup Physiol 69 (3 Suppl), 16, 1994. p.38.

Krakowski-Roosen, H., Schaechinger, H., Hildebrandt, W. (Koeln / Basel / Heidelberg): Autonomous cardiovascular control in orthostatic stress after short-term immersion. Session 1: Autonomic Regulation. In: The 4th International Head-Out Water Immersion Symposium, 1999, Graz.

Skipka, W., Krakowski-Roosen, H.: Correlations between the Renin-Angiotensin-Aldosterone-System and Blood-Viscosity of Subjects. In: 4th International Congress of Pathophysiology, June 29 – July 5, 2002, Budapest Hungary.

Krakowski-Roosen, H., Hildebrandt, W.: Autonome kardiovaskuläre Kontrolle während Orthostasestress nach thermoindifferenter, kurzzeitiger Immersion. In: Vortrag im Rahmen des Weiterbildungskurses für Balneologie und Medizinische Klimatologie des Verbandes Deutscher Badeärzte und der Bezirksärztekammer, 2002, Südbaden.

Hildebrandt, W., Krakowski-Roosen H.: Die arterielle Durchblutungsreserve des Unterarms bei Instrumentalisten im Seitenvergleich und Vergleich zu anderen Berufsgruppen. The Capacity of Vasodilation in the Forearm of Instrumentalists – Comparisons of Left to Right Side and to other Professions. In: 9. Europäischer Kongress für Musikphysiologie und Musikermedizin 4. - 6. April 2003 Staatliche Hochschule für Musik, Freiburg i. Br.

Krakowski-Roosen, H., Renk, H., Weber, M.A. u. a.: Muscular fatigue in weight-losing cancer patients: Impact of muscle capillarization and morphology on aerobic capacity. In: 3rd cachexia conference, P1.09, 2005, Rome.

Krakowski-Roosen, H., Weber, M.A., Renk, H. u. a.: Analysis of thigh muscle strength in human cancer cachexia by MR-tomography, MR-spectroscopy and biopsy parameters. In: 3rd cachexia conference, P1.10, 2005, Rome.

PUBLIKATIONEN PROF. DR. HOLGER KRAKOWSKI-ROOSEN

Stand: Oktober 2014

Renk, H., Krakowski-Roosen, H., Weber, M.A. u. a.: Progressive resistance training for restitution of muscle mass and strength in human cancer cachexia. In: 3rd cachexia conference, P3.49, 2005, Rome.

Schmitt, T., Martignoni, M., Bachmann, J. u. a.: Activity of the Akt-dependent anabolic and catabolic pathways in muscle and liver samples from cachectic cancer patients. In: 3rd cachexia conference, P3.36, 2005, Rome.

Renk, H., Krakowski-Roosen, H., Weber, M.A. u. a.: Progressive Resistance Training for Restitution of Muscle Mass and Strength in Human Cancer. In: 11th annual Congress of the European College of Sport Science, July 5th - 8th, 2006, Lausanne, Switzerland.

Künkele, A., Renk, H., Schmitt, T.L. u. a.: Resistance Training improves Natural Killer Cell Activity in Cachectic Cancer Patients. In: 11th annual Congress of the European College of Sport Science, July 5th - 8th, 2006, Lausanne, Switzerland.

Krakowski-Roosen, H., Stoia-Djeska, C., Skipka, W.: Diminished Increases of Urinary Dopamin Levels on Swimtraining – A Question of Water Immersion? In: 11th annual Congress of the European College of Sport Science, July 5th - 8th, 2006, Lausanne, Switzerland.

Stoia-Djeska, C., Skipka, W., Krakowski-Roosen, H.: Modulated Renal Function during Extensive Intervall Training in Swimming. In: 11th annual Congress of the European College of Sport Science, July 5th - 8th, 2006, Lausanne, Switzerland.

Bachmann, J., Krakowski-Roosen, H., Martignoni M. u. a.: Drastische Gewichtsverluste haben einen negativen Einfluß auf die Prognose nach chirurgischer Therapie des Pankreaskarzinoms. In: Innovative Konzepte in der onkologischen Rehabilitation, 22.-24.9 2006, Köln.

Künkele, A., Renk, H., Hildebrandt W. u. a.: Weight losing cancer patients improve their natural killer cell activity after intensive, isokinetic strength training. In: Innovative Konzepte in der onkologischen Rehabilitation, 22.-24.9. 2006, Köln.

Renk, H., Künkele, A., Weber, M. A. u. a.: Is an intensive, isokinetic strength training protocol able to give back muscle mass and strength to weight losing cancer patients? In: Innovative Konzepte in der onkologischen Rehabilitation, 22.-24.9. 2006, Köln.

Krakowski-Roosen, H., Renk, H., Weber, M. A. u. a.: Role of muscle mass and morphology in the reduced aerobic capacity of weight-losing cancer patients. In: Innovative Konzepte in der onkologischen Rehabilitation, 22.-24.9. 2006, Köln.

Weber, M. A., Krakowski-Roosen, H., Hildebrandt, W. u. a.: Beurteilung von Metabolismus und Mikrozirkulation der Skelettmuskulatur von tumorkachektischen Patienten im Vergleich zu altersgleichen Probanden durch funktionelle MR- und US-Techniken. In: Deutschen Röntgenkongress 16.-19.5. 2007, Berlin and Kongress der Deutschen Gesellschaft für Muskelkranke, 28.2.-3.3. 2007, Freiburg.

Krakowski-Roosen, H., Kinscherf, R., Renk, H. u. a.: Functional muscle testing may detect early cancer cachectic muscle degeneration. In: 4th cachexia conference, 2007, Tampa, Florida.

PUBLIKATIONEN PROF. DR. HOLGER KRAKOWSKI-ROOSEN

Stand: Oktober 2014

Skorokhod, A., Krakowski-Roosen, H., Martignoni, M.: Real-Imaging cDNA- AFLP gene expression profiling reveals new insights into muscle cachexia development of pancreatic cancer patients. In: 4th cachexia conference, 2007, Tampa, Florida.

Knicker, A., Müller, S., Baumann, F. u. a.: STRENGTH TRAINING ACCOMPANYING CHEMOTHERAPY AFTER LUMPECTOMY [PP-RE02]. In: Rehabilitation 2, 13th annual Congress of the European College of Sport Science, July 9th - 12th, 2008, Estoril, Portugal.

Skipka, W., Stoia-Djeska, C., Krakowski-Roosen, H.: HORMONAL REACTIONS TO ACTUAL TRAINING IN SWIMMING WITH RESPECT TO SEX AND TRAINING STATUS [PP-SM03]. In: Sports Medicine 3, 13th annual Congress of the European College of Sport Science July 9th - 12th, 2008, Estoril, Portugal.

Krakowski-Roosen, H., Kinscherf, R., Renk, H. u. a.: DETECTING FUNCTIONAL CHANGES IN LOCOMOTOR MUSCLES OF CACHECTIC CANCER PATIENTS: ISOMETRIC-ISOKINETIC-PEAK-TORQUE-RATIO GIVES AN ADDITIONAL IMPACT BESIDE WEAKNESS BECAUSE OF MUSCLE SHRINKAGE [OP-SM02]. In: Sports Medicine 2 – General, 13th annual Congress of the European College of Sport Science, July 9th - 12th, 2008, Estoril/ Portugal.

Krakowski-Roosen, H.: Krafttraining – eine neue Therapieoption in der Behandlung von kachektischen Tumorpatienten. In: 5. Laufmedizinisches Symposium 6. Mai 2009 -16.00 bis ca. 20.00 Uhr in der Europahalle Karlsruhe, Carl Benz Saal - durch die Akademie deutscher Orthopäden zertifiziert.

Weber, M., Krakowski-Roosen, H., Delorme, S. u. a.: Echtzeitevaluation der Mikrozirkulation im Skelettmuskel während isometrischer Belastung mittels kontrastverstärkten low-MI Ultraschalls. In: Ultraschall in Med; 30 - V5_07, 2009

Krakowski-Roosen, H.: Resistance Training in Cachexia Patients. In: Exercise, Energy Balance and Cancer - Conference in Heidelberg 15th and 16th November, 2010.

Freerk, T., Baumann, N., Drosselmeyer, A. u. a.: 12-Week Resistance Training with Breast Cancer Patients during Chemotherapy: Effects on Cognitive Abilities. In: Breast Care;6:142–143, (2011).

Krakowski-Roosen, H., Martignoni, M.: Einfluss von Sport auf die Tumorkachexie? - Ist Krafttraining ein lohnender Therapieansatz oder Irrweg? In: 30. Krebskongress Berlin 22. – 25. Februar 2012, Berlin.
