

PUBLIKATIONSLISTE PROF. DR. MATTHIAS VÖGELER

Stand Oktober 2010

Publikationen

Ullmann, M; Vögeler, M.: Delay Attacks - Implication on NTP and PTP Time Synchronization. In: 2009 International IEEE Symposium on Precision Clock Synchronization for Measurement, Control and Communication.

Ullmann, M; Vögeler, M.: Contactless Security Token - Enhanced Security by Using New Hardware Features in Cryptographic Based Security Mechanisms, Dagstuhl Seminar Proceedings of Foundations for Forgery-Resilient Cryptographic Hardware. Springer Verlag: 2009.

Ullmann, M.; Vögeler, M; Stappert, S. u. a.: Key Agreement for Contactless Smart Cards, RFIDSec08. In: Password Authenticated Workshop on RFID Security, 2008.

Vögeler, M.: Reconstruction of the three-dimensional refractive index in electromagnetic scattering by using a propagationbackpropagation. In: Inverse Problems Vol. 19, No. 3 (2003).

Konferenzvorträge

Vögeler, M.: Workshop on RFID Security. In: RFIDSec08, 2008, Budapest.

Vögeler, M.: Progress in Electromagnetics Research Symposium, PIERS 2002, 2002, Boston, Cambridge.

Vögeler, M.: Gesellschaft für angewandte Mathematik und Mechanik, GAMM, 2002, Universität Augsburg.

Vögeler, M.: Workshop on „Inverse Problems in Applications“, 2001, Weierstrass Institute for Applied Analysis and Stochastics, Berlin.

Patente

Neumann, H.; Scholze; S.; Vögeler, M.: Method of Generating Pseudo-Random Numbers. Angemeldet: NXP B.V.
